2018 TALL SHIPS-WHAT A DAY!

Shipmates, our recent PA event along Penn's Landing was a huge success. Visitor turnout was better this year than previous years. VE performed numerous exams, met with receptive and enthusiastic boaters; we networked with DRWC and fellow vendors and had an opportunity to obtain contacts for additional PA events.

Without the support of members sharing their time, this day could not have been possible. Meeting at Sector to load and transport materials, to staffing the booth, your efforts are greatly appreciated. **Way to Go Team!!!** That "family" spirit is back and we have to keep it going!

Next month, members have volunteered with FatherFest in West Chester. This will be

another fun day for members and their families. Come out and share the day.

This is our Auxiliary – Maintain its Goals- Working together keeps us strong.

Semper Paratus

Charles J Miller, II
 FSO-Publications

Coming together is a beginning.

Keeping together is progress.

Working together is success.

- Henry Ford

Tall ships VE Makes an Impact

Glenn Oldak – FSO-HR, Gary Papouschek –FSO-VE-PV, Justin Morgan-FSO-MS, Scott Sigman – Fellowship Chairman & John Del Gaiso did a stellar job performing VE inspections and

encouraging boaters to practice Boat Safety.

Thanks to you, we hope more boaters and their families can enjoy a safer boating season and reduce

fatalities in 2018. Good job.

Pics of the Day!

“Your Commitment to the Auxiliary is greatly appreciated.” Without you-it’s not Service.

Members: Allen Stitler, Ralph Onesti, Darryl Stevenson, Justin Morgan & Allaire Corbett enjoy a moment along the Tall Ships.

2nd photo- Dorothy French, Ralph & Allaire ready to meet & greet visitors!

3rd photo-Allaire, Allen Ralph and Charles-smile!

JUPIER’S HISTORY-LOST NOT FORGOTTEN

There’s a piece of local Auxiliary history docked alongside at Penn’s Landing, and if you have an opportunity to see her-Please do. She was once a vital part of service to our area. You can learn

more about her story at

<http://www.phillylovenotes.com/ralph-onesti-tugboat-jupiter-penns-landing/>

History Lost-Not Forgotten!

FATHERFEST – JUNE 17TH, 2018

Members- please note that we are participating in the American Helicopter museums annual – FatherFest event, located at 1220 American Boulevard, West Chester, PA 19380

This fun filled day includes a Coast Guard Helo, and our own **Capt. Anderson** who will be on hand to meet and greet visitors.

Bring your family and take

in a day of fun, activities, food & drinks. It's an exciting day featuring antique cars and motorcycles, sports-oriented inflatable games and helicopter rides (add'l cost) from 10:am to 3 pm.

If you do plan to participate, dress is **Trops**

Come out and have FUN!

For more info: contact Scott Sigman & Ralph Onesti.

FLOTILLA FELLOWSHIP EVENT AT YARDS

On May 22, several members gathered for a night of fun and fellowship at YARDS Taproom.

The evening consisted of jovial conversation, Flotilla matters and just getting to know “new members” that we welcomed aboard.

Each month, Scott Sigman – Fellowship Chairman, coordinates these events to allow us the opportunity to bond in

a relaxing atmosphere and bring together spouses of members, whom without their support, our activities in the Auxiliary would not be possible.

Thanks Scott for arranging these events, and Keep up the Fellowship! Be on the lookout for the next Fellowship event.

See photos on page 4.

04-76 Members Morgan & Sigman Train on the Delaware River for Boat Crew Coast

Coxwain Andy Crowley, the SARDET Marcus Hook Coordinator, has commenced the Boat Crew Training for 2018.

These trainings take place on week nights between 1700 – 2200 on the Delaware River and

include the following on the water skills: knots, line throwing, docking, anchoring, towing, navigating, and person in the water. In one recent training, Flotilla 4-76 Members Justin Morgan and Scott Sigman performed several towing exercises

and each took a turn at the helm of Facility 211-993.

The Boat Crew training program requires numerous sign offs and can take up to two years to complete. See photos on page 4.
